

# OFFER OF COMPLEMENTARY TUITION

## S2 → S3

---

### 10-finger touch typing (Mr Scherb)

---

... will be taught via a new memo technical method. It will be introduced in a student friendly way using associative thinking and visualization.

---

### Hip Hop / Street Dance (Mrs Scheiber)

---

The training starts with typical Hip-Hop steps in a routine. Afterwards you will learn some major Hip-Hop steps with the specific music. More steps and little combinations will be put together in a choreography.

---

### Drama (Mrs. Krause)

---

We will do drama exercises for body, voice and expression and we will create a play. In addition, we are visiting plays of others schools and professional theatres. The course is for pupils of classes s2 and s3. It will take place after school or on some Saturday afternoons, before the presentation on a complete weekend. The final dates will be decided together with the participants.

---

### Around the ball (Mrs. de Stefano/ Mrs. Hagedorn)

---

In all types of ball sports not only the techniques are important but also the teamwork. We want to practice both now, so that it will work in the future. Only then we can achieve the excellent results that we have reached in the past.

---

### Athletics (Mrs. De Stefano/ Mrs. Hagedorn)

---

Running, jumping and throwing are basics of the human body activities. There is no sport that doesn't have at least one of these abilities as a prerequisite for successful athletes. Whatever your physical build, this course helps everyone to find out their own discipline. This multifaceted exercise course will develop coordination, endurance, power and speed. The activities allow for measurable progress that can be seen.

---

### Geografía e historia de Espana y Latinoamérica (Frau Diaz)

---

Geography and history of Spain and Latin America with videos, visits of museums, books etc.

---

### Robotics (Mr. Biehl)

---

In this course students will learn the basics of robotics. With the help of the modular system Lego Mindstorms students learn in a playful way, like a robot will be built and programmed.

---

### Bollywood dancing (Mr. Rajendran)

---

Bollywood-dances are group dances with typical Indian moves, that are a lot of fun. We learn basic steps and simple choreographies. Precondition: dance experience and/or feeling for rhythm. Boys are also invited!

---

### Junior choir (Frau Plugge)

---

For all s2, s3 pupils who already sing in the Junior choir or would like to join. Rehearsals take place once a week in the lunch break. Singers will participate in ESM school concerts and musical events, which sometimes take place outside of school hours. A short audition is required in order to participate.

---

### French Diploma (DEL F A1) (Frau Barillet)

---

The present course is aimed at particularly motivated pupils beginning with French. It will help students pass the first level of an internationally recognised language examination: the **DEL F** (Diplôme d'Études en Langue Française) delivered by the French Ministry for Education and recognised by companies, chambers of commerce and public or private universities. The subjects of the course are the listening and reading comprehension, and the oral and written expression. At the end of the year, the pupils can pass the DEL F-A1-Examination. For further information about the DEL F certificate, please check the following link:

DEL F : <http://www.ciep.fr/de/delfscolaire/>

---

### Knitting (Frau Rudschies)

---

You can knit everything, not only accessories or clothes. Jewelry, items, whimsicals, animals, really everything. It is also a traditional handcraft, a fine art too, which is now strongly coming back. This class gives the opportunity to learn all basic and skills you need to enjoy and practice knitting. "Learning by doing" is a priority, in order to produce very soon nice, personal projects. Another aim of this class is to demonstrate that "doing-by-yourself" can be much more enjoyable than simple consuming (shopping). This handcraft stimulates geometrical and logical thinking, as well as concentration, personal creativity and dexterity.

---

### Discoveries (Frau Maddiona/ Frau Della Mora)

---

In several workshops we will "rediscover" the most important discoveries and inventions and will thereby retrace the story of mankind.

---

### Recycling (Frau Maddiona)

---

With fantasy and creativity we will learn how to transform old stuff or even waste materials in useful and beautiful objects

---

### Practical economics (Herr Britzke)

---

We are going to form a company. You decide which product we are going to produce and sell or which service we offer. In doing so, we practice economical thinking and we put it into practice.

---

### Comics (Mrs. Liedts)

---

In the course of the year, we will go through all the stages involved in the creation of a comic, from the original idea until the publication (write the story-line, decide on a style (Manga, American or French/Belgian, create characters and background, order the events and draw the comic. We will learn to use graphic tablets especially for the colouring and the text. Finally, we will print a copy for every participant. In June we will visit the International Comic Festival of Munich and we will invite a professional author from Munich to come and show us how he works.

**Ein Kurs wird nur eingerichtet, wenn mindestens 10 Schüler angemeldet sind.**

**Die Anmeldungen sind verbindlich. Eine nachträgliche Abwahl ist NICHT möglich, überlegt deshalb genau, wofür ihr euch anmeldet.**
